**Ordinances, Regulations:**

**Ordinances:**

**O. B.SC. (I.T.) – 1:** Candidate for admission to the Bachelor of Science (Information Technology) must have passed standard 12<sup>th</sup> or equivalent examination from Gujarat Higher Secondary Board or any other board.

**O. B.SC. (I.T.) – 2:** Candidate who have passed an equivalent examination from any other board or examining body and is seeking admission to the B.SC. (I.T.) course will be required to provide necessary eligibility certificate.

**O. B.SC. (I.T.) – 3:**

**Definitions of Keywords:**

1. **Academic Year:** An Academic Year is divided into two semesters and a semester of minimum 15 weeks comprises 90 working days.
2. **Programme:** An educational programme leading to award of the Certificate in B.Sc. (Information Technology), Diploma in B.Sc. (Information Technology), Bachelor of Science (Information Technology), Bachelor of Science (Information Technology) (Honours) or Bachelor of Science (Information Technology) (Honours with Research).
3. **Course:** Usually referred to, as 'paper/subject' is a component of a program. The courses should define learning activities, objectives and learning outcomes. Types of courses / activities constitute the programs of study comprise lectures outreach activities / Practical / Case Study / Group Discussion / Quiz / Project work / Viva / Seminars / Assignment / Internship / Presentations / Research Project etc. or a combination of some of these.
4. **Major & Minor Discipline Course:** Major discipline is grouping of courses of main focus and the degree will be awarded in that discipline. Students should secure the prescribed number of credits (about 50% of total credits) through core courses in the major discipline. Minor discipline helps a student to gain a broader understanding beyond the major discipline.
5. **Multidisciplinary Courses:** These courses are intended to broaden the intellectual experience and form part of other disciplines.
6. **Ability Enhancement Courses:** The courses aim at enabling the students to acquire and demonstrate the core linguistic skills, including critical reading and expository and academic writing skills, that help students articulate their arguments and present their thinking clearly

and coherently and recognize the importance of language as a mediator of knowledge and identity.

- 7. Skills Enhancement Courses:** These courses are aimed at imparting practical skills, hands-on training, soft skills, etc., to enhance the employability of students.
- 8. Value-Added Courses / Indian Knowledge System:** The course aims at enabling the students to acquire and demonstrate the knowledge and understanding of contemporary India with its historical perspective, the basic framework of the goals and policies of national development, and the constitutional obligations with special emphasis on constitutional values and fundamental rights, ethics and duties.
- 9. Summer Internship/ Apprenticeship:** Students will have to undergo Internships / Apprenticeships in a firm, industry, or organization or Training in labs with faculty and researchers in their own or other HEIs/research institutions during the summer term. Students will be provided with opportunities for internships with local industry, business organizations, health and allied areas, local governments (such as panchayats, municipalities). Parliament or elected representatives, media organizations, artists, crafts persons, and a wide variety of organizations so that students may actively engage with the practical side of their learning and, as a by-product, further improve their employability.
- 10. Vocational Courses:** Vocational Education and Training will form an integral part of the undergraduate programme to impart skills along with theory and practical.
- 11. Research Dissertation:** Students choosing a 4-Year Bachelor's degree (Honours with Research) are required to take up research dissertation under the guidance of a faculty member. The students are expected to complete the Research Dissertation in the eighth semester.

**O. B.SC. (I.T.) – 4:**

**Multiple Exit System:**

<b>1</b>	<b>UG Certificate</b>	UG Certificate will be awarded when a student exits after completion of semester 1 and semester 2 with 44 credits along with successfully completion of <i>work based</i> vocational course of 4 credits Online/Offline or internship/Apprenticeship
<b>2</b>	<b>UG Diploma</b>	UG Diploma will be awarded when a student exits after completion of semester 1 to semester 4 with 88 credits along with successfully completion of <i>work based</i> vocational course of 4 credits Online/Offline or internship/Apprenticeship

**B.Sc. (I.T.) (Honours) & B.Sc. (I.T.) (Honours with Research)**  
**(Semester - 1 and Semester - 2)**  
**Saurashtra University**  
**To be effective from June – 2023**

<b>3</b>	<b>UG Degree</b>	Bachelor's degree will be awarded when a student exits after completion of semester 1 to semester 6 with 132 credits.
<b>4</b>	<b>UG Degree Honours / Honours with Research</b>	Bachelor's degree (Honours / Honours with Research) will be awarded when a student exits after completion of semester 1 to semester 8 with 176 credits.

**O. B.SC. (I.T.) – 5:** Students are permitted to take a break or exit with a UG certificate / UG Diploma / UG Degree are permitted to re-enter within three years and complete the degree programme. But total duration for completing the programme shall not exceed 7 years.

**O. B.SC. (I.T.) – 6:** No candidate will be admitted to any semester examination for B.SC. (I.T.) unless it is certified by the principal that he/she has attended the course of study to the satisfaction of the principal of the college.

4	FAIL	FAIL	FAIL	BOTH (THEORY & INTERNAL)

**R.S.B.SC. (I.T.) – 2. Marks and credit hours of each course**

(1) 4 Credit Theory Course:

- Total Marks of each theory course are 100 (University Examination of 70 Marks + Internal Examination of 30 Marks)
- Marks of Each Unit in the course are equal (i.e., 14 Marks). Total Marks of each course are  $14 \times 5 = 70$  for university examination.
- Credit hours (lectures) for each unit in the course are equal (i.e., 12 hours). Total credit hours (lectures) of each course are  $12 \times 5 = 60$ .

(2) 4 Credit Practical / project-viva Course:

- Total Marks of each practical / project-viva course are 100. No internal examination of marks in practical / project-viva courses.
- Total Credit hours (practical) for this course is 120 hours.

(3) 2 Credit Course (AEC, IKS and SEC):

- No theory examination for this course.
- Total marks for this course are 50 Marks
- Total Credit hours for this course is 30 hours.
- Following is the assessment and evaluation method for this course.

<b>Assessment and Evaluation Method for AEC, IKS and SEC Course</b>	
Classroom Participation and Attendance	25%
Assignment and Quizzes	25%
Group Discussion	25%
Oral Presentation	25%

**To be effective from June – 2023**

**R.S.B.SC. (I.T.) – 3. Structure of Question Paper (70 Marks)**

Question Paper contains 5 questions (each of 14 marks). Every question will be asked from respective unit as specified in the syllabus of each course. (i.e. Question-1 from Unit No.1 and remaining questions from their respective units)

Every question is divided in four parts like (a), (b), (c) and (d). Part (a) contains four objective type questions (not MCQ) like definition, reason, answer in one line, answer in one word etc., each of one mark and no internal option. Part (b) contains two questions each of two marks and student will attempt any one out of two. Part (c) contains two questions each of three marks and student will attempt any one out of two. Part (d) contains two questions each of five marks and student will attempt any one out of two.

**Course Outcome:**

- ✓ Able to explore the fundamental concepts of computers
- ✓ Able to Understand peripheral devices, internal and external parts of computer system.
- ✓ Able to Understand Number System like binary, hexadecimal and octal number systems and their arithmetic.
- ✓ Able to recognize the emerging technologies
- ✓ Able to differentiate the types of virus

**Additional Topics (Not to be asked in examination):**

Student should be aware of followings

- To Format Hard Disk
- Installation of OS, multi-OS and other packages
- Use of DOS commands
- Operating of Accounting Software

2. Let us C Author : Kanitkar.
3. Pointer in C Author : Kanitkar.
4. Data and File Structure Author : Trembley & Sorrenson.

**Course Outcome:**

- Able to Understand basic data structures and their implementations.
- Able to Understand importance of data structures in context of writing efficient programs.
- Able to Develop skills to apply appropriate data structures in problem solving
- Able to Explore tree and graph data structure

**Additional Topics to be taught during the semester – 2 (Not to be asked in examination):**

- Case studies of data structure

**CS-14: Environmental Science: Understanding the Earth's Ecosystems and Sustainability**

**Objective:**

- The primary objective is to introduce students to the fundamental concepts of Environmental Science, including ecosystems, biodiversity, natural resources, pollution, climate change, and sustainability.
- The course aims to raise awareness about pressing environmental challenges faced globally and locally, such as air and water pollution, deforestation, habitat destruction, and climate change.
- Students will become familiar with environmental laws, regulations, and policies at local, national, and international levels, which govern environmental protection and conservation efforts.

**Prerequisites:**

- A fundamental understanding of basic science subjects.

Unit No.	Topic	Details
1	<b>Introduction to Environment Science</b>	<ul style="list-style-type: none"> <li>• Definition</li> <li>• Environmental Issues and Challenges</li> <li>• Principles and Scope</li> <li>• Concepts of Ecology and Ecosystem</li> </ul>
2	<b>Environmental Pollution</b>	<ul style="list-style-type: none"> <li>• Types of Pollution (air, water, soil, noise, etc.)</li> <li>• Sources and impact of pollution</li> <li>• Mitigation and control measures</li> </ul>
3	<b>Climate Change and Global Warming</b>	<ul style="list-style-type: none"> <li>• Greenhouse effect and its implications</li> <li>• Causes and consequences of climate change</li> <li>• Sustainable practices to combat global warming</li> </ul>

**Course Outcome:**

- Students will demonstrate a solid understanding of environmental concepts.
- Students will develop an increased awareness of pressing environmental issues facing the planet today and recognize the interconnections between human activities and the environment.

**Reference Books:**

- “Environmental Science” by G. Tyler Miller and Scott Spoolman
